

Haining Yahui Plastic Industry Co., Ltd.

**The following is an introduction to our company's related
Products**

product list : BOPP/PE Protective Film PET Base Film

Metalized/ Holographic Pet Films PVC Laminating Film Wall

Panel Film/SPC Flooring Film

Brushed Aluminum Film Matte PET Film

Gloss Pearl Metallic Wrap (Sparkle Pearlescent Film)

Hot Stamping Foil/ Heat Transfer Film

Skirting Line / Corner Film

PVC Plain Film

Now we will introduce the products in detail

BOPP/PE Protective Film

Application: Aluminum, metal, glass, stainless steel, acrylics, PET polycarbonate and coated plastic surface protection.

Main features : Protection from scratches, abrasions, against humidity and dirt, UV resistance.

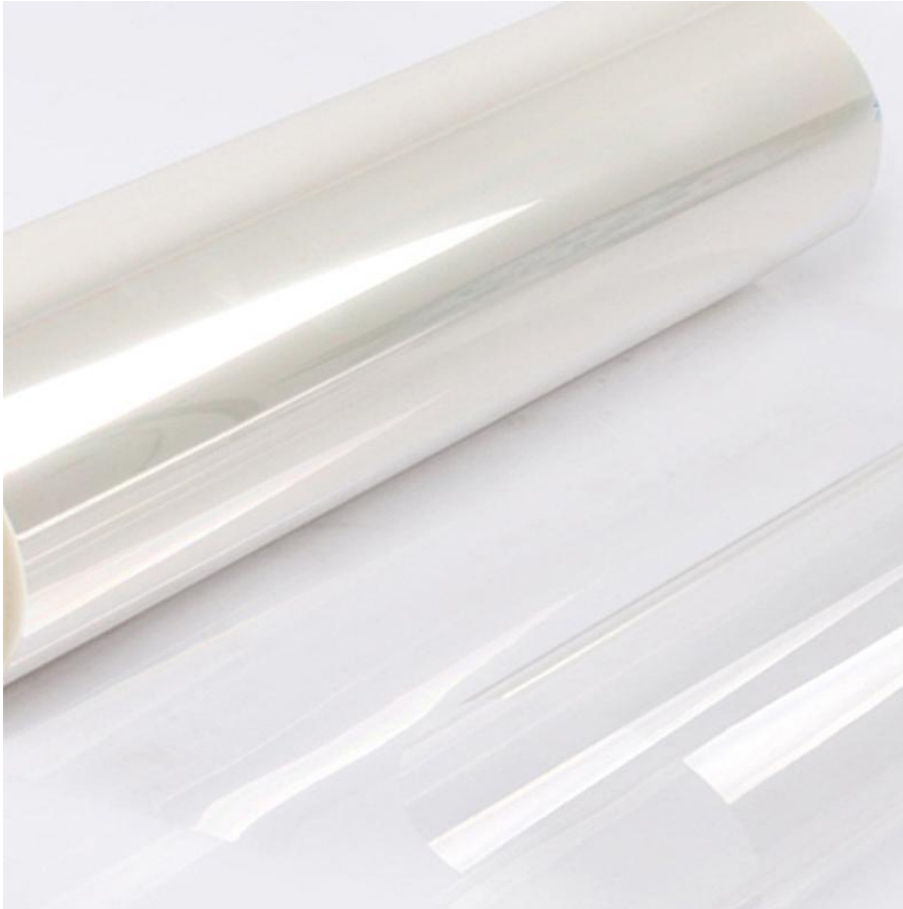

Color: White, blue, transparent.

Thickness: 2.2 micron, 3.2 μm .

Width: 20----1300mm.

Length: According to your requirement.

PET Base Film

Main

features:

Matte or
gloss finish
PET Films or
Polyester
based films
are
fabricated
for high
speed
lamination

feature that have robust adhesion and abrasion resistance. Also, it renders excellent resistance to scratch, tear and scuff.

Thickness: 12-500 μ m.

Width: 100-3200mm.

Length: According to your requirement.

Metalized/ Holographic Pet Films

Application: Mainly used in food, medicine, cosmetics, candies and other packaging products.

Main features: UV Light-proof, moisture-proof, high adhesion with

aluminum layer.

Thickness: 1.2 μm , 1.8 μm

Width: 4---2500mm

Length: According to your requirement

Main features:

1. Sustainability and environmental protection
2. High barrier to moisture, oxygen, gas and aroma
3. Ultra transparent
4. Boiling properties
5. Printable
